Dear Parents,

Greetings from T.M Patel International School!!

We have attached great importance to enhance the Safety and Security measures for children travelling in our own School Buses. We furnish here under a list of such enhanced safety measures which have been implemented:-

- All buses will be run by authorised Private Contractors only who have sufficient years of experience in running of school buses and who are fully acquainted and competent to adhere to the prescribed norms of safety as laid down by the Regional Transport Commissioner.
- A number of our school buses have CCTV cameras.
- Each School bus has 2 adults in the bus. A trained driver, a lady attendant.
- All Lady Attendants will have a dedicated Mobile Number and will be designated for each route without being changed frequently. They will be monitoring discipline in the school bus, besides taking responsibility for conducting the bus and shall be reporting directly to the School Principal and Administrator.
- New routes may be added during the academic session.
- As per the recent R.T.O rules, private vehicles (unauthorised Bus, Mini Bus, Auto rickshaws, etc.) should not be used to ferry school children to and fro from school. These guidelines have also been reiterated by the Honourable Supreme Court of India. The rules are important as these private vehicles may not prescribe to the safety and security norms for school children.
- Suggestions and grievances may be brought to the notice of your respective school's Transport Manager. Details can be found at the organizational chart section and contact us section.
- There will also be a Transport Committee for each school comprising of the respective Principal, Admin Officers / Transport Officers.
- There will be 3 School bus routes which are attached below along with the stops & approx. timings.

- Please find the School Transport fees below:2023-24

TERMS AND CONDITIONS

1. School transport is optional and it's not compulsory, based on the availability of buses and routes this will be offered on first come first serve basis. School management reserves the right to deny transport to any of the student if there are no buses plying to those residential areas or if there is no additional capacity in the buses or for any other reasons.
2. School management reserves the right to terminate the service for children of those parents who haven't paid fees in advance within the prescribed dates and can offer the same to others who are in the waiting list.
3. School provides only a point to point pick up/drop service and not a door to door service; hence parents need to accompany their children to designated pick up / drop points and take responsibility of their children from home to these points. School will not have any responsibility beyond the designated pick up / drop points.
4. Any change of address, pick up/drop points, contact details and request for termination of the transportation service should be notified to school fifteen days in advance.
5. Transport fee once paid will be not refunded in any circumstances after the child starts availing the service. If a child avails school transport even for a single day, for a particular term, he/she is liable to pay the entire term fee. Single pick/drop facility is not available. In case of a request for single pick/drop, parent is requested to make the entire payment.
6. Any undue increase in input costs with reference to transportation, like fuel, manpower, maintenance, mandatory security inclusions, statutory government levies etc, would result in increase of transport fees.
7. School transport department is responsible to draw the route plans for the buses, any change in these routes will be notified to parents in advance.
8. Management reserves the right on route planning and parents are requested to co-operate for ensuring smooth operations.
9. Routes during mid afternoon drop and evening drop may be combined to ensure efficient utilization of the buses and manpower, however this information will be provided to parents well in advance.
10. The school will appoint a lady attendant/teacher to accompany and supervise the children in the school bus at all times.
11. To ensure on-time arrival at school, buses will wait for TWO minutes after the assigned pick-up time before moving to the next pick-up point.
12. Parents are responsible for daily supervision arrangements when a child arrives at the designated drop-off point.
13. The child will be handed over only to the designated person against producing Parent ID card upto class V.
14. In the event of unavailability of designated person at the drop-point on the designated time, the bus will wait for two minutes, post which the bus will bring the kid back to school. Parents are then required to pick their child from the school by producing Parent ID card.
15. Traffic, city events and accidents may disrupt the transportation. In such cases the school will keep the parent informed and may request parents to make alternate arrangements, if required.
16. If the parent wishes to change the pickup or drop points then such a request should be sent to school office in writing 15 days in advance. Post which, a written permission from the Principal should be handed over to Transport in-charge.
17. If the Parent wishes to pick up the child on a particular day then the Parent has to obtain written permission from administrative in-charge / Principal in advance.
18. All issues and questions related to the school's transportation service should be directed to the school's transport in-charge / administrative in-charge.
